

Our Residents Committee meets on a 6 weekly basis. This committee was formed in the latter part of last year and its purpose is to provide a forum for residents to ensure that their needs, ideas and initiatives for Residents are discussed, reviewed and actioned as appropriate.

This is achieved when the committee:-

- submit recommendations, ideas and initiatives to support the living requirements of residents;
- suggest ways to improve/enhance the living status of residents
- ensure that the collective voice of residents is presented to management and the board
- review and comment on relevant policies and procedures
- act in an advisory capacity as required on all aspects of services provided by EKHH.

To date this committee have developed and implemented a process to welcome new residents to their home, organised and run weekly movie showings, arrange for music to be played whilst dining if desired. The Committee are currently working on the development of a welcome letter for all new residents and staff, a brochure to introduce the committee and some staff and considering name badges for residents who may want to wear one.
